The contest was open for students of Sree Narayana college for women, Kollam and 18 students from different departments participated in the event. Nanditha Lekshmi of III BSc IMB got the first Prize and Revathy M of I MSc Physics got second prize.

Awareness program on single use plastic ban in the campus in association with Haritha Kerala mission

Plastic pollution has risen to be one of the most alarming situations in the world and has become a serious environmental concern. It may have started as a cheap alternative to make products long lasting and disposable, but its side effects are being felt now. Plastic had played such an important role in our lives that we feel it is not even possible to live in a world without it. The wrong disposal of such wastes leads to serious concerns in the environment. We need to be woke about these situations and aspire to be eco-friendly for sustainable development. To overcome this, the Environment club volunteers of Sree Narayana College for Women conducted an awareness programme for the students to make them aware of the dangers we regularly encounter to exist on the earth. Some students were selected as the volunteers to lead the sessions. The sessions were filled with hot discussions based on the above-mentioned topic and specially it was really an enlightening session for the first-year students. They also tried to understand the listeners about the importance of the sustainable development. All the teachers and students from our college were a part of this initiative and they have attended the group discussions too. They should refrain from buying single use plastic products and reuse, repair and recycle products. Plastic can be replaced with materials like cotton, jute, glass, steel, wood etc. Even though we cannot completely vanish plastic from our surroundings but with every one's individual efforts and small contributions towards plastic elimination can lead to a healthy environment. Our volunteers took initiative of awareness program on the environmental damage through plastic bags as per the guidelines given by Haritha Kerala mission, Government of Kerala.
