- Better sanitation facilities

### **OBJECTIVES OF THE PLAN**

- Academics
- Teaching, Learning and Research
- Institution and Social Responsibility
- Cultural Activities
- Infrastructure
- Administration
- Extension Activities and Best Practices
- Clean Green Campus

## **Ten Year Plan-Vision Statement**

Sree Narayana College for Women, Kollam is committed to enriching the lives of the students by empowering them. Our college endeavors to create a humanistic society by educating the youth in order to convert them in to intellectually, emotionally and socially stimulated citizens. We consider education as a tool for social change and its true purpose is the comprehensive development of an individual. The college attempts to provide quality education to students in an invigorating environment. Academic excellence is the foundation upon which our college is build and is maintaining its reputation. We always strive to sustain and enhance the quality of the academic matters. Our institution is planning to explore additional options in pursuit of its goal towards maintaining academic excellence. A culture of academic excellence is achieved by the actions of motivated students, motivated faculty and most importantly an enriched and dynamic interaction with faculty and students. Our teachers encourage the students to develop critical thinking and 'learning to learn'. As we envisage the 'whole student' concept, in conjunction with the academic excellence, we also focus our attention to sports and extra-curricular activities. Our institution believes in the holistic development of our students and we will be providing them with more opportunities to actively participate in the extra- curricular activities. This facilitates an increased learning and enhanced development of students. As the development of the well-rounded individual is the principal goal of extracurricular activities, the numerous experiences these activities afford positively impact students' emotional, intellectual, social, cultural and inter-personal development.

Our campus aims for a newer, bigger and better infrastructure with a renovation plan for a five storied building replacing the present blocks of building. We aim for a renovation, preserving the heritage building, which enhances the amenities of our college utilizing the available five acres of land. As we aim to mold a socially responsible and committed future generation, we will be creating time and space for our students to zestfully indulge in more social activities. Our institution is planning to set the stage for the students for a lifetime of learning in, reaching out and building connections with the society that can bridge barriers, which enable them to learn to negotiate, communicate, manage conflict, and lead others. We believe that success is more important than just graduating. Our college imparts value added and career - oriented education to the students with a focus on ethics. We train students to adapt themselves as they venture into workspace. From counselling to boosting their morale, our college provides and

will provide every possible help needed for the students. We regularly conduct training sessions for developing logical reasoning and communication skills. We plan to provide more hands-on training sessions for creating an empowered and economically independent generation. Keeping in view with the changing scenario in career opportunities we are planning to revamp our sessions according to the need of the hour.
